

Dear <Name>,

We're excited to let you know that residents of the Town of Rochester are eligible to subscribe to two solar farms that are managed by Nexamp and going live in 2019. **We will be hosting information sessions on January 24th and January 26th for you to learn more about how you can tap into these solar farms and reduce your electric bill.**

The solar farms, located off Route 209 near Samsonville Road and off Airport Road, will add nearly 14 megawatts of renewable energy to Central Hudson's electricity grid in 2019

Nexamp's farms are part of New York's community solar program, which allows residents to subscribe to a share of a local solar farm and **go solar without rooftop panels**. Subscribers receive credits on their electrical utility bill for the energy produced by their solar farm share.

As part of the agreement between the town and Nexamp, residents have first access to shares of Nexamp's solar farms in the Town of Rochester. Additionally, **the first 100 Rochester residents to become subscribers will be eligible for a 15% discount on their credits**. After the first 100 slots have been filled, residents will be eligible for Nexamp's standard 10% discount on their credits.

With Nexamp, there's no upfront cost or long-term commitment – you can cancel your share at any time.

To learn more or sign up, please visit www.rochestersolar.info or call Nexamp at 800-945-5124.

You can also join us at one of our upcoming information sessions. Please bring a recent electricity bill to the meeting so that Nexamp can estimate the size of the solar farm share you will need.

**Thursday January 24th
6:30 PM**

**Saturday January 26th
10:00 AM**

**Harold Lipton Community Center
15 Tobacco Road
Accord, NY 12404**

We look forward to seeing you there.

Zaid Ashai
President & CEO, Nexamp

Mike Baden
Town of Rochester Supervisor
