Peak Power Systems shall provide the following generator services:

APPENDIX I:

- Change lube oil and standard filters (Once a Year)
- Check air cleaner, replace if needed
- Check battery (terminations, connections and water level) battery charging system, cables, belts, hoses, oil level/conditions, coolant level/conditions, safety circuit alarms and lights, automatic transfer switch, switchgear power connection temperature and automatic exercise system. (Maintenance free batteries cannot be checked for fluid)
- Check for exhaust leaks and corrosion
- Check piping and hose connections
- Observe and record oil pressure, coolant temperature, voltage at no load and load, HZ and amperage reading at no load (and load when possible) Adjust if needed
- Test run engine
- Observe and report condition of generator

NOTES:

- Generator Maintenance visits will be performed Monday through Friday during normal business hours.
- Equipment or parts in need of replacement or repairs will be brought to the customers' attention and billed separately on a time and material basis.
- Additional billing for NiCad battery service.
- Please have snow removed prior to service or additional charges may apply.
